POISON IS FOUND.

Kansas City, Mo., Jan. 29.—Poison has been found in the organs of Col. Thomas Swope and his nephew, Chrisman, and upon this finding the heirs of the dead millionaire will demand an investigation by the state to ascertain the cause of the death last fall of these two men. This definite statement was made today by a representative of the Swope estate, following the receipt of a partial report of the chemists in Chicago.

The poison, it is stated, was found in the liver and not in the stomachs of the dead onen. Whether or not it was in sufficient quantity to have caused death and was administered for that purpose, must be determined by a coroner's inquest. This inquest probably will be begun next Tuesday. Upon the verdict returned by this body will depend the action of the county prosecutor.

The exact conclusions reached so far by the Chicago chemists are being

The exact conclusions reached so far by the Chicago chemists are being guarded closely. It is believed the chemists are still pursuing their investigations. John G. Paxton, executor of the Swope estate, who received a message yesterday from Dr. Heikoten requesting him to go to Chicago for a conference, announced today that he would leave for that city tonight. Mr. Paxton declined to talk regarding the Paxton declined to talk regarding the chemist's report or go into the case.

New York, Jan. 29 .- Bradstreets says: New York, Jan. 23.—Bradstreets says:
Cross currents in demand render general characterization difficult. Wholesale and jobbing trade in spring goods tends to expand, travelers on the road are sending in better orders and the outlook for the future in those lines is optimistic. Retail trade is quieter pending the further advance of the winter season. Filling in orders from retailers to jobbers are moderate. Manufacturing industry is very busity employed.

### DISPENSE THE CHARITY.

Business Men Ask More Consideration for Provident Association.

A representative committee of busi-ess men of the city have visited the ness men of the city have visited the board of county commissioners urging a closer relation of the county poor commissioners office and that of the Provident association in alleviating the sufferings and in caring for the poor. The main point of concern was that the Provident association by reason of its greater activity in the closely populated city and its systematic records of the needy and their own efforts for maintenance is enabled to better control the charitable expenditures.

ance is enabled to better control the charitable expenditures.

The proposition was that the comsioners allow the association to dispense the county's charity funds in part at least.

The committee of interested business men was composed of W. W. Mills, E. H. Crosby, F. P. MacLennan, H. L. Hall, Robert Pierce, W. A. L. Thompson, N. S. Wear, George A. Clark, Dr. W. S. Lindsay, P. #### TODAY'S MARKET REPORTS

Chicago, Jan. 29 .- WHEAT-Early trad-Chicago, Jan. 29.—WHEAT—Early trading in the wheat pit here today was slow and within narrow limits, opening from a shade lower to 1/40/4c higher. The dragging tendency of continued heavy arrivals was counterbalanced by a good cash demand which in the first hour gave a slightly firmer tone to the market, advancing prices generally about 1/4c. May opened at \$1.11 to \$1.114, a shade lower to 1/40/4c higher and son afterward touched \$1.115.

The market showed little change later

\$1.11%.

The market showed little change later in the session, the fluctuations being within a narrow range. May sold up to \$1.11% from \$1.11. The close was firm with May at \$1.114@1.11, '4c higher than yesterday's final's.

from \$1.11. The close was firm with May at \$1.114.20.11. %c higher than yesterday's finals.

CORN—Corn opened uniformly at a shade lower to a shade higher and in the first hour sagged from %c to c under scattered commission selling. Accumulating stocks and a slow demand for cash corn gave a bearish tinge to the market. May at the opening was 65%c to 65%c and fell off to 66%c.

The market fluctuated later within narrow limits. May sold up to 66%26%c and fell to 66%c, closing at 66%c, %6%c lower than yesterday.

OATS—Trade in the oats pit was featureless in the early hours. The opening figures were from a shade lower to %6 c higher. Belief that quantities of the grain are awaiting shipment gave a bearish tendency to the market. In the first hour prices kept within the opening figures with an inclination toward the low levels. May opened at 46%c to 46%c, a shade lower to a shade higher.

PROVISIONS—Provisions fell off generally from 2%c to 7%c, most of the activity being in lard. Continued light receipts of live hogs was a buillish factor, working against any well defined break in provisions quotations. Opening figures for the May produdcts were: Pork, \$20.90; lard, \$11.57%; ribs, \$11.35 to \$11.37%.

RYE—Cash: \$60.71c.
